**LET'S DO IT FOR
JAMES, TOGETHER!**

WHO IS JAMES WOODS?

James was a 17-year-old high school student growing into a young man. A person who ran year-round just because. He started with outdoor track and field. But he noticed that his times could be a little better so he began to run around his neighborhood to increase his endurance. Aside from running, James was also a person that people looked forward to being around. He was literally the life of the party. Where ever James went, he made people laugh. He brought out nothing but smiles from all of his friends. If you weren't his friend then you haven't met him yet. His magnetic personality relaxed the most rigid of souls.

Unfortunately, this beautiful life was cut short because of the actions of money-hungry criminals. They targeted James. James was being cyberbullied. The culprits extorted money from James, mentally tortured him, threatened him, and harassed him all night and into the next day. James was exhausted from lack of sleep. James tried everything he could think of to stop his parents from learning of the embarrassing acts that took place. The last resort was that of the ultimate price; his life.

WHAT IS SEXTORTION?

Sextortion is a crime that usually happens online when someone begins to extort money or sexual favors from someone else by threatening to reveal evidence of their sexual activity. Currently these online predators are targeting minors under the age of 18.

WHAT SHOULD PARENTS DO?

- DO NOT blame yourself. Children make mistakes. Let's work together to help them.
- Give your child grace.
- Educate yourself and speak to your child about social media dangers.
- The best way to fight is to provide your child with ways to avoid internet predators. Sextortion can affect anyone regardless of age, cultural background, gender, or economic status.

TABLE CONVERSATIONS

Talk to your children and young adults:

- Let them know you are here for them.
- What is appropriate to do online/text/facetime, etc.
- Be protective of your space, it is okay to not "friend" everyone on social media.
- Let them know you are here for them.
